

WATERPROOFING PENETRATION
WITH INTEGRATED SLEEVE

2KO

TECHNICAL DATA SHEET

Date of issue: 11/2024

BASIC INFORMATION

Category: ACCESSORIES FOR WATERPROOFING MATERIALS

Usage: The penetration seal is designed for a reliable watertight passage of waste pipes through waterproofing layers. It enables a systematic and reliable connection to the waterproofing membrane without the need for manual sealing of the insulation to the pipe. The connection to the waterproofing is performed in the usual manner, according to the chosen type of waterproofing material.

TECHNICAL INFORMATION

Material: polyamide / stainless steel

Color: green

Pressure resistance: 0,5 bar

Dimensions [mm]

model	x	y	a	b	c
